SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

CD-ROM PRODUCTS NOW AVAILABLE FROM THE U.S. PATENT AND TRADEMARK OFFICE

Trademark Information on CD-ROM

The U.S. Patent and Trademark Office is pleased to announce the availability of trademark information on Compact Disc-Read Only Memory (CD-ROM). These discs, previously available only at U. S. Patent and Trademark Depository Libraries, may now be purchased by the general public. Subscription to any trademark title below will begin with the first disc issued after October 1, 1994. Orders may be placed now.

Trademark Registrations: Contains the text of all active registered trademarks from 1884 through the date specified with each issue. Twenty-nine search fields are available, including Word Mark, International and U. S. Classifications, Goods & Services, Design Search Code, Dates of Filing, Publication for Oppositions, and Registration, and more. Cost: $300/subscription.

Trademarks Pending: Contains the text of trademark applications which have been filed but not yet approved for registration as of the date specified with each issue. Twenty-four search fields are available, including most of the same fields present on the Trademark Registrations disc. Cost: $300/subscription.

Trademark Assignments: Contains the text of bibliographic data from trademark assignment deeds recorded at the U.S. Patent and Trademark Office from 1955 through the date specified with each issue. Ten search fields are available, including Assignor, Assignee, Mark, Date Recorded, and others. Cost: $300/subscription.

All Trademark CD-ROM products also currently contain the *Trademark Manual of Examining Procedure* and a Goods and Services manual which are updated when electronic versions of revisions are made available. All search results can be viewed on screen, printed, or downloaded to diskette.

Each product title will be sold individually on a yearly subscription basis consisting of approximately six discs. Updated discs issue approximately every two months. Back issues are not available once superseded by current issues.

SNAP (Serial Numbers for Allowed Patents) CD-ROM

This CD-ROM provides a concordance between U.S. patent numbers and their application serial number. Kinds of patent documents included are: utility, design, plant, reissue, Statutory Invention Registration and Defensive Publication, filed after December 31, 1976, which were granted by the U.S. Patent and Trademark Office through the date specified with each disc. Search fields are: Serial Number, Application Year, Series Code, Patent Title and Patent Number. Updated discs issues on an irregular basis. Cost per disc: $50. Back issues are not available once superseded by an updated disc. Orders may be placed now for the next disc to issue.

USAPat

USAPat contains facsimile images on CD-RM of all documents issued weekly by the U.S. Patent and Trademark Office. These include: utility patents, design patents, plant patents, reissue patents, reexamined patents, Statutory Invention Registrations, and Certificates of Correction. Each week's issue consists of 2 or 3 discs.

This product allows users to view and print all patents. Images shown on the screen can be "zoomed" for better viewing. Excellent copies can be obtained using a laser printer.

As a document delivery system, patents on CD-ROM offer advantages over traditional formats. Storage requirements will be reduced, fast retrieval of documents will be possible, and excellent laser-printed copies will be available immediately for your use.

USAPat will be sold on a calendar year subscription basis at a cost of $2,400. You may elect to begin your subscription with the first issue of 1995, or with the first issue of 1994.

The price for all CD-ROM products includes the discs, retrieval software, and appropriate printed user documentation, which are the only user support available from the PTO. The discs are mailed first class domestic or air mail overseas. Payment may be made by check or money order payable to the Commissioner of Patents and Trademarks, or charged to your PTO deposit account. Cash, credit cards and purchase orders are *not* accepted.

NOTICE OF FINAL RULEMAKING AND LIFTING OF SUSPENSION.

SUMMARY: The Patent and Trademark Office (PTO) is amending the rules of practice in patent cases, Part 1 of title 37, Code of Federal Regulations, to adjust certain patent fee amounts to reflect fluctuations in the Consumer Price Index (CPI) and to recover costs of operation. The PTO also is providing notice that, beginning on October 1, 1994, the suspension of the fee for access to the Automated Patent System's Full Text Search capability (APS-Text) at a Patent and Trademark Depository Library (PTDL) will be lifted. However, the PTO is rescinding this hourly fee, which was established by 37 CFR 1.21(p), and in its place assessing an annual subscription fee on PTDLs providing such service. On October 1, 1994, the PTO also will begin collecting a fee for access to the Automated Patent System's Classified Search and Image Retrieval capability (APS-CSIR) from the search facilities in Arlington, Virginia.

EFFECTIVE DATE: October 1, 1994.

FOR FURTHER INFORMATION CONTACT: Robert Kopcso by telephone at (703) 305-8510, fax at (703) 305-8525, or by mail marked to his attention and addressed to the Commissioner of Patents and Trademarks, Washington, D.C. 20231.

SUPPLEMENTARY INFORMATION: This rule change is designed to adjust the PTO fees in accordance with the applicable provisions of title 35, United States Code, and section 10101 of the Omnibus Budget Reconciliation Act of 1990 (Public Law 101-508), all as amended by the Patent and Trademark Office Authorization Act of 1991 (Public Law 102-204).

There are two objectives of this final rule package. The first objective is to adjust certain patent fee amounts to reflect fluctuations in the Consumer Price Index (CPI) and to recover costs of operation.

The second objective is to provide notice that PTO is lifting the suspension on the fee for access to APS-Text at a Patent and Trademark Depository Library (PTDL). This fee was established by rule on October 1, 1992 (published in the *Federal Register* on August 21, 1992 at 57 FR 38190). Collection of the fee was immediately suspended by the Commissioner to provide additional time for the PTO to solicit input from the private sector on alternative collection methods, and other options for accessing patent search and retrieval in the Libraries. In response to public comments, the PTO will rescind the fee established by 37 CFR 1.21(p), and assess a subscription fee under 37 CFR 1.21(k) on each PTDL that provides its patrons with access to APS-Text. The basis for the subscription amount is less than the fee amount that was established in 37 CFR 1.21(p). Each participating library will be responsible for establishing policies for providing access to their patrons.

The PTO also will begin charging a fee for on-line access to APS-CSIR at the Patent Search and Image Retrieval Facility (PSIRF) in Arlington, Virginia. Free access to APS-CSIR has been offered at the PSIRF since July 12, 1993. The PTO now will begin recovering the cost of providing this on-line access in accordance with 37 CFR 1.21(k).

The PTO will make any necessary adjustments to these automated system fees based upon actual fiscal year 1995 usage. Future adjustments will be made based upon deviations in system costs and/or public usage.

BACKGROUND

Statutory Provisions

Patent fees are authorized by 35 U.S.C. 41 and 35 U.S.C. 376. A fifty percent reduction in the fees paid under 35 U.S.C. 41(a) and 41(b) by independent inventors, small business concerns, and nonprofit organizations who meet prescribed definitions is required by 35 U.S.C. 41(h).

Subsection 41(f) of title 35, United States Code, provides that fees established under 35 U.S.C. 41(a) and (b) may be adjusted on October 1, 1992, and every year thereafter, to reflect fluctuations in the Consumer Price Index (CPI) over the previous 12 months.

Section 10101 of the Omnibus Budget Reconciliation Act of 1990 (Pub. L. 101-508) provides that there shall be a surcharge on all fees established under 35 U.S.C. 41(a) and 41(b) to collect $107 million in fiscal year 1995.

Subsection 41(d) of title 35, United States Code, authorizes the Commissioner to establish fees for all other processing, services, or materials related to patents to recover the average cost of providing these services or materials, except for the fees for recording a document affecting title, for each photocopy, and for each black and white copy of a patent.

Section 376 of title 35, United States Code, authorizes the Commissioner to set fees for patent applications filed under the Patent Cooperation Treaty (PCT).

Subsection 41(i)(3) of title 35, United States Code, authorizes the Commissioner to establish reasonable fees for access to automated search systems of the PTO.

Subsection 41(g) of title 35, United States Code, provides that new fee amounts established by the Commissioner under Section 41 may take effect thirty days after notice in the *Federal Register* and the *Official Gazette of the Patent and Trademark Office*.

Recovery Level Determinations

This rule adjusts patent fees for a planned recovery of $571,439,000 in fiscal year 1995, as proposed in the Administration's budget request to the Congress. The fee amounts established for automated access to PTO's data bases will recover reasonable costs of providing these services to the public. The total amount expected to be collected is consistent with the budgeted amount.

The patent statutory fees established by 35 U.S.C. 41(a) and 41(b) are being adjusted on October 1, 1994, to reflect any fluctuations occurring during the previous 12 months in the Consumer Price Index (CPI-U). In calculating these fluctuations, the Office of Management and Budget (OMB) has determined that the PTO should use CPI-U data as determined by the Secretary of Labor. However, the Department of Labor does not make public the CPI-U until approximately 21 days after the end of the month being calculated. Therefore, the latest CPI-U information available is for the month of May 1994. In accordance with previous rulemaking methodology, the PTO uses the Administration's projected CPI-U for the 12-month period ending September 30, 1994, which is 3.0 percent. Based on this projection, patent statutory fees are being adjusted by 3.0 percent. Before the final fee schedule is published, the fees may be slightly adjusted based on actual data available from the Department of Labor.

Certain non-statutory patent processing fees established under 35 U.S.C. 41(d) and PCT processing fees established under 35 U.S.C. 376 are being adjusted up to the three percent fluctuation in the CPI in order to recover their estimated average costs in 1995. Three patent service fees that are set by statute are not adjusted. The three fees that are not being adjusted are assignment recording fees, printed patent copy fees and photocopy charge fees.

The Office calculated unit costs for all fees based on OMB Circular A-25, "User Fees", and OMB Circular A-130, "Management of Federal Information Resources". Costs were determined from the best available records (for example, financial statements of the Office) and included direct and indirect costs to the Office for carrying out the activity, as directed by OMB Circular A-25. The patent statutory fee amounts were rounded by applying standard arithmetic rules so that the amounts rounded would be convenient to the user.

Fees of $100 or more were rounded to the nearest $10. Fees between $2 and $99 were rounded to an even number so that the comparable small entity fee would be a whole number.

The Office has detailed cost calculation worksheets for each fee amount. These worksheets are available for public inspection in Suite 507 of Crystal Park 1, 2011 Crystal Drive, Arlington, Virginia.

Workload Projections

Determination of workloads varies by fee. Principal workload projection techniques are as follows:

Patent application workloads are projected from statistical regression models using recent application filing trends. Patent issues are projected from an in-house patent production model and reflect examiner production achievements and goals. Patent maintenance fee workloads utilize patents issued 3.5, 7.5 and 11.5 years prior to payment and assume payment rates of 80 percent, 57 percent and 25 percent, respectively. Service fee workloads follow linear trends from prior years' activities.

Any fee amount that is paid on or after October 1, 1994, would be subject to the new fees then in effect. For purposes of determining the amount of the fee to be paid, the date of mailing indicated on a proper Certificate of Mailing or Transmission, where authorized under 37 CFR 1.8, will be considered to be the date of receipt in the PTO. A Certificate of Mailing or Transmission under Section 1.8 is not "proper" for items which are specifically excluded from the provisions of Section 1.8. Section 1.8 should be consulted for those items for which a Certificate of Mailing or Transmission is not "proper." Such items include, inter alia, the filing of national and international applications for patents. However, the provisions of 37 CFR 1.10 relating to filing papers and fees with an "Express Mail" certificate do apply to any paper or fee (including patent applications) to be filed in the PTO. If an application or fee is filed by "Express Mail" with a proper certificate dated on or after the effective date of the rules, as amended, the amount of the fee to be paid would be the fee established by the amended rules.

COST CALCULATIONS

APS-Text at a Patent and Trademark Depository Library (PTDL)

The costs for one hour terminal session time on APS-Text at a PTDL include license fees that must be paid to Chemical Abstracts Service (CAS) for its proprietary text and structure search software. Other costs are included for a portion, projected at 3.65 percent, of the lease of a computer mainframe for memory storage purposes; all costs associated with training PTDL staff (equipment rental, materials and time); personnel to provide client support to the PTDLs; and telecommunication costs. A summary of the costs are listed below.

APS-Text Cost of One Hour of Terminal Session Time at a Patent and Trademark Depository Library

Cost Element	Public Share
Client Support Overtime	$10,203
Additional Mainframe Costs	$43,216
Software (license fee)	$273,000
Training Costs	$10,000
Subtotal	$336,419
General & Admin. Overhead @ 12.2%	$40,976
Total Cost	$377,395
Estimated Annual Usage (hours)	54,600
Unit Cost (per hour)	$6.91
Telecommunication Costs (per hour)	$8.00
Total Cost (per hour)	$14.91
Total Cost (per hour - rounded)	$15.00

The PTDLs will pay an annual maximum use subscription rate based on one of five tier levels, roughly equivalent to one to five hours of use per day, five days per week. Each PTDL will select a maximum use subscription tier based on its anticipated usage and be responsible for monitoring their own use. The PTDLs will also be responsible for establishing their own policies regarding the provision of APS-Text in their library.

If during the year a PTDL is about to exceed its chosen level of maximum use, the PTDL will be allowed to move to a higher tier (and pay the additional subscription rate) or to use up to the subscribed level and cease continued access mid-year.

Tiers	Annual Usage	Annual Subscription Rate
I	0 - 300 hours	$2,250
II	301 - 600 hours	$6,750
III	601 - 900 hours	$11,250
IV	901 - 1200 hours	$15,750
V	1201 - 1500 hours	$20,250

The subscription rates were derived using the $15.00 per hour access charge previously calculated. There will be no additional charges or refunds to each library. For each tier, a discount mechanism is included in the annual subscription calculation. For example, the annual subscription rate of $2,250 for Tier I is calculated by taking the mean average of the annual usage range (in this case 150 hours is the mean of zero and 300 hours) and multiplying it by the $15.00 per hour access charge. Therefore, for a PTDL in Tier I, any usage over 150 hours is free to the library. But if a PTDL in Tier I were to not use at least 150 hours, the PTO would not be required to refund the amount of the subscription fee that was not used.

APS-CSIR at the Patent Search and Image Retrieval Facility (PSIRF)

The costs for one hour terminal session time on APS-CSIR at the PSIRF include license fees that must be paid to Chemical Abstracts Service (CAS) for its proprietary text and structure search software. It is estimated that 40 percent of the terminal time will be used for text searching, which requires the search software from CAS.

Other costs are included for a portion, projected at 2.25 percent, of the lease of a computer mainframe for memory storage purposes; additional personnel for the PSIRF and the Office of Computer and Telecommunications Operations; computer acquisition, installation, and maintenance; supplies and equipment dedicated to public use; and general and administrative overhead. A summary of the costs are listed below.

APS-CSIR Cost of One Hour of Terminal Session Time at the Patent Search and Image Retrieval Facility

Cost Element	Total Cost
Compensation and Benefits	$250,813
Additional Hardware and Mainframe Costs	$226,792
Software (license fee)	$25,000
Supply Costs	$10,512
Installation Costs (amortized)	$25,366
Subtotal	$538,483
Space Costs	$41,759
General & Admin Overhead @ 12.2%	$65,695
Total Cost	$645,937
Estimated Annual Usage (hours)	13,000
Unit Cost (per hour)	$49.68
Rounded Fee Amount (per hour - prorated)	$50.00

A comparison of existing and revised fee amounts is included as an Appendix to this notice of final rulemaking.

In order to ensure clarity in the implementation of the revised fees, a discussion of specific sections is set forth below.

Response to Comments on the Rules

Patent Fee Increase

A notice of proposed rulemaking to adjust patent fees was published in the *Federal Register* on May 27, 1994, at 59 FR 27519, and in the *Official Gazette* on June 7, 1994, at 1163 OG 14.

A public hearing was held on June 28, 1994. Three comments were received and considered in adopting the rules set forth herein.

Comments: The respondents, although not objecting to the three percent fee increase, strongly oppose any fee increase for the purpose of making up patent fee surcharge money that is being withheld from the PTO. The respondents support the Administration's proposal to ensure that all user fees assessed by the PTO are used exclusively by the PTO.

Response: The Omnibus Budget Reconciliation Act of 1990 (Public Law 101-508) requires the PTO, in fiscal year 1995, to collect $107 million in patent fee surcharges and to deposit these collections to the Patent and Trademark Office Fee Surcharge Fund. In the past, Congress has only appropriated part of these deposits back to the PTO. Deposits not made available to the Office reside in the Fund. To date, the reserve in the

Fund is slightly in excess of $35 million. For fiscal year 1995, the PTO requested that all patent fees be provided directly to the Office, thereby eliminating reliance on appropriations from the Fee Surcharge Fund. This language will not be enacted. The House of Representatives has recommended that an additional $18.7 million in patent fee surcharges not be made available to the Office in fiscal year 1995. Final action on the 1995 appropriations bill is pending. The Administration does not propose to increase patent fees in fiscal year 1995 other than the increase that reflects fluctuations in the Consumer Price Index.

Collection of the Fee for Access to APS-Text at the PTDLs

A fee for access to APS-Text at a PTDL was set in the final rule package published in the *Federal Register* on August 21, 1992 (57 FR 38189). The final rule became effective October 1, 1992. On that date, the fee took effect but collection was immediately suspended by the Commissioner to provide additional time to solicit input from the private sector on alternative collection methods, and other options for accessing patent search and retrieval in the Libraries.

The Office received six comments.

Comment: Two respondents stated that many of the PTDLs already have considerable experience in collecting fees for access to on-line patent and trademark services provided by private sector vendors. They suggested that mechanisms already in place could be adapted to the collection of fees for PTO-provided services.

These respondents also suggested that the PTO procure access for the PTDLs to private sector on-line patent and trademark services, using a Federal procurement mechanism, such as Fedlink.

Response: The PTO encourages the PTDLs to provide a variety of patent and trademark services for their patrons. However, the PTDLs are not required to provide access to private sector on-line services, and the PTO can only provide support and training to the PTDLs for products and services it develops.

In the case of APS access, participation on the part of the PTDLs will be voluntary. With respect to other services, the PTDLs will make the decision as to which ones best fit the needs of their user communities. Fedlink, which provides on-line services to Government agencies, cannot extend its charter to include the PTDLs.

Under the proposed subscription method, libraries should develop policies and procedures which best suit their particular circumstances.

Comment: One respondent suggested that the access to APS be expanded beyond the PTDLs, with a small fee for general use, and discounted fees for independent inventors and/or off-peak usage.

Response: At this time, allowing direct access by the public would impact internal PTO operations. Access at PTDLs will ensure usage in a controlled environment, where end-users will have access to knowledge and skills of trained librarians.

Comment: One respondent suggested that the PTO permit voluntary participation by the individual PTDLs.

Response: Participation on the part of the PTDLs will be voluntary. The level of participation by the PTDLs will not affect their relationship with the PTO in any manner.

Comment: One respondent suggested that the PTO provide access to APS-Text on a subscription basis. This method would set a fee for anticipated usage over a determined period of time.

Response: The PTO will provide access to APS-Text to the PTDLs on an annual subscription basis. All of the libraries will have the option of subscribing. Each library that chooses to subscribe will establish a policy for providing the public with access to APS-Text.

Comment: One respondent suggested that the PTO set up a system that allows users to input credit or debit card numbers.

Response: Currently, the PTO is studying this collection option. The current equipment in use does not allow access via a credit or debit card. This option may be feasible in the near future.

Other Considerations

This final rule change is in conformity with the requirements of Executive Order 12612, and the Paperwork Reduction Act of 1980, 44 U.S.C. 3501, et seq. There are no information collection requirements relating to these patent fee rules. This final rule has been determined to be significant for purposes of Executive Order 12866.

The PTO has determined that this final rule change has no Federalism implications affecting the relationship between the National Government and the States as outlined in Executive Order 12612.

The General Counsel of the Department of Commerce has certified to the Chief Counsel for Advocacy, Small Business Administration, that the final rule change would not have a significant impact on a substantial number of small entities (Regulatory Flexibility Act, Pub. L. 96-354). The final rule change increases fees by changes in the CPI as authorized by 35 U.S.C. 41(f). The principal impact of the major patent fees has already been taken into account in 35 U.S.C. 41(h), which provides small entities with a 50-percent reduction in the major patent fees.

Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information in various formats from the U.S. Patent and Trademark Office. Many PTDLs have on file all full-text patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PTDLs have both the patent and trademark sections of the *Official Gazette of the U.S. Patent and Trademark Office*. The full-text utility and design patents are distributed numerically on 16 mm microfilm, and plant patents on color microfiche. Patent and trademark search systems on CD-ROM (Compact Disc-Read Only) format are available at all PTDLs to increase utilization of and enhance access to the information found in patents and trademarks. It is through the CD-ROM systems that preliminary patent and trademark searches can be conducted through the numerically arranged collections.

All information is available for use by the public free of charge.

In addition, each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials. Facilities for making paper copies of patent and trademark information are generally provided for a fee.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jan. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jan. 26, 1973 (911 O.G. TM 210).
